Quick Guide

SIP Cordless Phone

Model No. KX-TGP500 B08

Model No. **KX-TGP550** T08

Model shown is KX-TGP500.

Model shown is KX-TGP550.

Thank you for purchasing a Panasonic product.

Charge the batteries for about 6 hours before initial use.

Please read this guide before using the unit and save it for future reference.

About this guide

This guide explains how to use the basic features of KX-TGP500/KX-TGP550. For further information on operations and customising your phone, please read the User Guide on the Panasonic Web site at:

http://panasonic.net/pcc/support/sipphone/

Contact your administrator for further information.

Accessory information

Note:

• See page 17 for setting up the unit.

Supplied accessories

No.	Accessory item/Port number	Quantity	
NO.	Accessory item/Part number	KX-TGP500	KX-TGP550
1	AC adaptor/PQLV219AL	2	2
2	Ethernet cable	1	1
3	Base unit stand*1	1	_
4	Corded handset	_	1
(5)	Corded handset cord	_	1
6	Rechargeable batteries/	2	2
	HHR-65AAAB or N4DHYYY00003		
7	Handset cover*2	1	1

^{*1} The base unit stand comes attached to the base unit.

^{*3} Write down the names of 6 users and attach to the base unit (page 10).

^{*2} The handset cover comes attached to the handset.

For your safety

To prevent severe injury and loss of life/property, read this section carefully before using the product to ensure proper and safe operation of your product.

WARNING

Power connection

- Use only the power source marked on the product.
- Do not overload power outlets and extension cords. This can result in the risk of fire or electric shock.
- Completely insert the AC adaptor/power plug into the power outlet. Failure to do so may cause electric shock and/or excessive heat resulting in a fire.
- Regularly remove any dust, etc. from the AC adaptor/power plug by pulling it from the power outlet, then wiping with a dry cloth. Accumulated dust may cause an insulation defect from moisture, etc. resulting in a fire.
- Unplug the product from power outlets if it emits smoke, an abnormal smell, or makes an unusual noise. These conditions can cause fire or electric shock. Confirm that smoke has stopped emitting and contact your phone system dealer.
- Unplug from power outlets and never touch the inside of the product if its casing has been broken open.
- Never touch the plug with wet hands.
 Danger of electric shock exists.

Installation

- To prevent the risk of fire or electrical shock, do not expose the product to rain or any type of moisture.
- Do not place or use this product near automatically controlled devices such as automatic doors and fire alarms. Radio waves emitted from this product may cause such devices to malfunction resulting in an accident.
- Do not allow the AC adaptor or Ethernet cable to be excessively pulled, bent or placed under heavy objects.
- It is advised not to use the equipment at a refuelling point. Users are reminded to observe restrictions on the use of radio

equipment in fuel depots, chemical plants or where blasting operations are in progress.

Operating safeguards

- Unplug the product from power outlets before cleaning. Do not use liquid or aerosol cleaners.
- Do not disassemble the product.
- Do not spill liquids (detergents, cleansers, etc.) onto the Ethernet cable plug, or allow it to become wet at all. This may cause a fire. If the Ethernet cable plug becomes wet, immediately pull it from the LAN (Local Area Network) wall socket, and do not use.
- KX-TGP550 only: Do not excessively pull the corded handset cord from the base unit. This may cause the base unit to fall, resulting in injury.

Medical

- Consult the manufacturer of any personal medical devices, such as pacemakers or hearing aids, to determine if they are adequately shielded from external RF (radio frequency) energy. (The product operates in the frequency range of 1.88 GHz to 1.90 GHz, and the RF transmission power is 250 mW (max.).)
- Do not use the product in health care facilities if any regulations posted in the area instruct you not to do so. Hospitals or health care facilities may be using equipment that could be sensitive to external RF energy.

CAUTION

Installation and relocation

- Never install LAN (Local Area Network) during an electrical storm.
- Never install Ethernet cable sockets in wet locations unless the socket is specifically designed for wet locations.
- Never touch uninsulated LAN (Local Area Network) or terminals unless the LAN (Local Area Network) has been disconnected at the network interface.
- Use caution when installing or modifying LAN (Local Area Network).
- The AC adaptor is used as the main disconnect device. Ensure that the AC outlet is installed near the product and is easily accessible.

 This product is unable to make calls when there is a power failure.

Battery

- We recommend using the batteries noted on page 3. USE ONLY rechargeable Ni-MH batteries AAA (R03) size.
- Do not mix old and new batteries.
- Do not open or mutilate the batteries.
 Released electrolyte from the batteries is corrosive and may cause burns or injury to the eyes or skin. The electrolyte is toxic and may be harmful if swallowed.
- Exercise care when handling the batteries.
 Do not allow conductive materials such as rings, bracelets, or keys to touch the batteries, otherwise a short circuit may cause the batteries and/or the conductive material to overheat and cause burns.
- Charge the batteries provided with or identified for use with this product only, in accordance with the instructions and limitations specified in this manual.
- Only use a compatible charger to charge the batteries. Do not tamper with the charger. Failure to follow these instructions may cause the batteries to swell or explode.

General notices

- This equipment will be inoperable when mains power fails.
- When a failure occurs which results in the internal parts becoming accessible, disconnect the power supply cord immediately and return this unit to your phone system dealer.
- Disconnect the Ethernet cable before disconnecting the power connection prior to relocating the equipment, and reconnect the power first.
- No "000" (for Australia), "111" (for New Zealand), and/or other calls can be made from this device during a mains power failure.
- For New Zealand: This equipment shall not be set to make automatic calls to the Telecom "111" Emergency Service.
- To minimise the possibility of lightning damage, when you know that a thunderstorm is coming, we recommend that you:
 - Unplug the Ethernet cable from the Ethernet cable socket.

- Unplug the AC adaptor from the AC power outlet.
- The earpiece on the handset is magnetised and may retain small metallic objects.

Important notice:

 Under power failure conditions, this telephone will not operate.

Important safety instructions

When using your product, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

- Do not use this product near water for example, near a bathtub, washbowl, kitchen sink, or laundry tub, in a wet basement or near a swimming pool.
- Avoid using a telephone (other than a cordless type) during an electrical storm. There may be a remote risk of electric shock from lightning.
- 3. Do not use the telephone to report a gas leak in the vicinity of the leak.
- Use only the power cord and batteries indicated in this manual. Do not dispose of batteries in a fire. They may explode. Check with local codes for possible special disposal instructions.

SAVE THESE INSTRUCTIONS

For best performance

Base unit location/avoiding noise

The base unit and other compatible Panasonic units use radio waves to communicate with each other.

- For maximum coverage and noise-free communications, place your base unit:
 - at a convenient, high, and central location with no obstructions between the cordless handset and base unit in an indoor environment.
 - away from electronic appliances such as TVs, radios, personal computers, wireless devices, or other phones.

Important Information

- facing away from radio frequency transmitters, such as external antennas of mobile phone cell stations. (Avoid putting the base unit on a bay window or near a window.)
- Coverage and voice quality depends on the local environmental conditions.
- If the reception for a base unit location is not satisfactory, move the base unit to another location for better reception.

Environment

- Keep the product away from electrical noise generating devices, such as fluorescent lamps and motors.
- The product should be kept free from excessive smoke, dust, high temperature, and vibration.
- The product should not be exposed to direct sunlight.
- Do not place heavy objects on top of the product.
- When you leave the product unused for a long period of time, unplug the product from the power outlet.
- The product should be kept away from heat sources such as radiators, cookers, etc. It should not be placed in rooms where the temperature is less than 0 °C or greater than 40 °C. Damp basements should also be avoided.
- The maximum calling distance may be shortened when the product is used in the following places: Near obstacles such as hills, tunnels, underground, near metal objects such as wire fences, etc.
- Operating the product near electrical appliances may cause interference. Move away from the electrical appliances.

Routine care

- Wipe the outer surface of the product with a soft moist cloth.
- Do not use benzine, thinner, or any abrasive powder.

Security caution

When using this product, take appropriate measures to avoid the following security breaches.

Leaks of private information via this product

- Illegal use of this product by a third party
- Interference or suspension of the use of this product by a third party

Take the following measures to avoid security breaches:

- To prevent illegal access, keep the base unit software updated (if you do not have the latest version of software, this can lead to blocked access or information leaks).
 Refer to the User Guide on the Panasonic Web site. See page 3 for Panasonic URL.
- You are responsible for the security settings, such as the password for the Web user interface, to access this product. This information should not be made available to any third parties outside the user group. To prevent unauthorised access to this product, we recommend that you regularly change the password.
- Place this product where it is unlikely to be stolen.
- During an internet call, outside interference may occur resulting in improper call transmission and/or unit function.

Other information

Notice for product disposal, transfer, or return

 This product can store your private/confidential information. To protect your privacy/confidentiality, we recommend that you erase information such as phonebook or caller list entries, or the password for the Web user interface from the memory before you dispose of, transfer, or return the product. Contact your administrator about resetting the password for the Web user interface.

Information on Disposal in other Countries outside the European Union

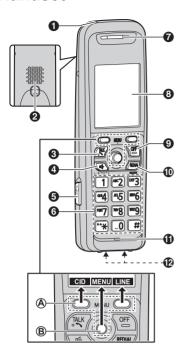

These symbols are only valid in the European Union. If you wish to discard these items, please contact your local authorities or dealer and ask for the correct method of disposal.

Emergency calls

All lines including unassigned lines are available for emergency calls if the phone numbers are configured in the Web user interface. Availability depends on your phone system. Contact your administrator for further information.

Handset

- Charge indicator
 Ringer indicator
 Message indicator
- Speaker
- **❸** [↑] (TALK)
 - To make calls
- 4 [♣] (SP-PHONE: Speakerphone)
 - To talk hands-free
- 6 Headset socket
- O Dial keypad
- Receiver
- 3 Display
- [OFF]
 - To stop operation
- (REDIAL) [PAUSE]
- Microphone

Charge contacts

■ Control type

A Soft keys

The handset features 2 soft keys and a joystick. By pressing a soft key, or by pressing the centre of the joystick, you can select the feature shown directly above it on the display.

® Joystick

By pushing the joystick ([▲], [▼], [◄], or [►]) repeatedly, you can:

- scroll through (up, down, left, or right) various lists or items
- adjust the receiver or speaker volume (up or down) while talking

Temporarily switching the handset display mode

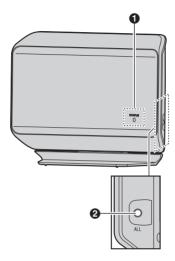

You can select to display either a single item or multiple items on one screen at a time for the phonebook list, caller list, and redial list.

You can temporarily switch the handset display mode as follows by pressing the right soft key shown when viewing the lists with:

- [MULTI]: Multiple items are shown on one screen at a time.
- [SINGLE]: An item is shown on one screen at a time. You can confirm the detailed information

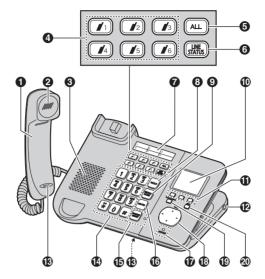

Base unit

KX-TGP500

- **♠** STATUS indicator
 - Indicates the status of the unit and network.
- 2 Handset locator button [ALL]
 - Allows you to page all handsets.

 VOICE MAIL indicator
- ② [EXIT]
- To stop operation
- *1 Your phone system needs to support voice mail. Contact your administrator for further information.

Navigator key/volume key

■ Scrolling through lists or items

By pressing this key ($[\![A]\!]$, $[\![v]\!]$, or $[\![v]\!]$) repeatedly, you can scroll through (up, down, left, or right) various lists or items.

■ Adjusting the volume

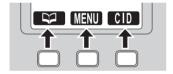

By pressing this key ([A] or [v]) repeatedly, you can adjust the receiver or speaker volume (up or down) while talking.

■ Moving the cursor

By pressing this key ([A], [V], [V], [V], or [V]) repeatedly, you can move the cursor to edit a number or name.

Soft keys

The base unit features 3 soft keys. By pressing a soft key, you can select the feature shown directly above it on the display.

STATUS indicator on the base unit

During the startup process you may notice that the STATUS indicator on the base unit is flashing. This indicates that the base unit is booting up with your phone system. You may find the following flash patterns helpful:

Status		
Colour	Light pattern	Meaning
Green	On	 The base unit is connected to the Internet. The startup process is complete and you may now make and receive internet calls.
	Flashing	The base unit is downloading data. Do not disconnect the Ethernet cable or AC adaptor from the base unit until the STATUS indicator stops flashing and lights in steady green.

Controls

Status			
Colour	Light pattern	Meaning	
Red	On	When the base unit is turned on, the STATUS indicato lights in red for about 10 seconds.	
	Flashing	The base unit is registering a handset.	
	Flashing rapidly	The base unit is paging handsets. (KX-TGP500 only)	
Amber	On	The base unit's IP address may conflict with the IP addresses of other devices on your local network. Contact your administrator for further information.	
	Flashing	The base unit is obtaining an IP address or is obtaining configurations. Please wait.	
		The base unit is registering with your phone system. Please wait.	
		 If the STATUS indicator continues flashing, check the following: 	
		 Network settings may not be correct. Contact your administrator. 	
		 Many installation issues can be resolved by resetting all the equipment. First, shut down your modem, router, hub, base unit, and computer. Then turn the devices back on one at a time in this order: modem, router, hub, base unit, computer. 	
		 If you cannot access Internet Web pages using your computer, check to see if your phone system is having connection issues in your area. For more troubleshooting help, contact your administrator. 	
	Flashing rapidly	 Unplug the base unit's AC adaptor to reset the unit, then reconnect the AC adaptor. If the STATUS indicator is still flashing rapidly, there may be a problem with the base unit hardware. Contact your phone system dealer. 	
Off	_	The base unit power is off. The Ethernet cable is not connected properly. Connect	
		it. • Your network devices (hub, router, etc.) are turned off. Check the LEDs for the link status of the devices. • The base unit power is booting up.	

Making calls using the handset

- Lift the handset and dial the phone number.
 - To correct a digit, press [CLEAR].
- 2 Press [CALL] or [].
 - The unit selects the default line configured by your administrator.
 - You can also select the line manually as follows:

[LINE] \rightarrow [\checkmark]/[\land]: Select the desired line. \rightarrow [CALL]

When you finish talking, press [OFF] or place the handset on the charger.

Note:

 For further details, please read the User Guide on the Panasonic Web site. See page 3 for Panasonic URL.

Using the speakerphone

- 1 Dial the phone number and press

 【□←】.
 - The unit selects the default line configured by your administrator.
 - You can also select the line manually as follows:

[LINE] \rightarrow **[▼]**/**[** \blacktriangle **]**: Select the desired line. \rightarrow **[** \P \P **]**

- Speak alternately with the other party.
- When you finish talking, press [OFF].

Note:

- For best performance, use the speakerphone in a quiet environment.
- To switch back to the receiver, press
 [].

Adjusting the receiver or speaker volume

Push the joystick up or down repeatedly while talking.

Making a call using the redial list

The last 10 phone numbers dialled are stored in the redial list (each 32 digits max.).

- 1 [REDIAL]
- **2** [▼]/[▲]: Select the desired phone number.
- 3 [▶]/[➪]
 - If [4] is pressed and the other party's line is engaged, the unit automatically redials multiple times. While the handset is waiting to redial, the ringer indicator flashes. To cancel, press [OFF].

Making calls using the base unit (KX-TGP550 only)

- 1 Dial the phone number.
 - To correct a digit, press [CLEAR].
- 2 Lift the corded handset.
 - The unit selects the default line configured by your administrator.
 - You can also select the line manually as follows:
 - **[LINE]** \longrightarrow [V]/[A]: Select the desired line. \longrightarrow Lift the corded handset.
- 3 When you finish talking, place the corded handset on the cradle.

Note:

- You can also dial the phone number after lifting the corded handset.
- For further details, please read the User Guide on the Panasonic Web site. See page 3 for Panasonic URL.

Using the speakerphone

- 1 Dial the phone number and press (SP-PHONE).
 - The unit selects the default line configured by your administrator.
 - You can also select the line manually as follows:

[LINE] → [v]/[A]: Select the desired line. → Press [CALL] or [SP-PHONE].

- When the other party answers, speak into the base unit microphone.
 - Speak alternately with the other party.
- When you finish talking, press [SP-PHONE].

Note:

- For best performance, use the speakerphone in a quiet environment.
- To switch to the receiver, lift the corded handset.

Adjusting the receiver or speaker volume

Press (▲) or (▼) repeatedly while talking.

Making a call using the redial list

The last 10 phone numbers dialled are stored in the redial list in each unit (each 32 digits max.).

1 [REDIAL]

- 2 [▼]/[▲]: Select the desired phone number.
- 3 Lift the corded handset or press [SP-PHONE].
 - If [SP-PHONE] is pressed and the other party's line is engaged, the unit automatically redials multiple times. While the base unit is waiting to redial, the SP-PHONE indicator on the base unit flashes. To cancel, press [EXIT].

Answering calls using the handset

When a call is being received, the ringer indicator on the handset flashes rapidly.

- 1 Lift the handset and press [CALL], [, or [, when the unit rings.
 - You can also answer the call by pressing any dial key from [0] to [9], [*], or [#]. (Any key answer feature)
- When you finish talking, press [OFF] or place the handset on the charger.

Adjusting the handset ringer volume

While the handset is ringing for an incoming call:

Push the joystick up or down repeatedly to select the desired volume.

- Programming the volume beforehand:
 - 1 [MENU] (centre of joystick) → [♯][1][6][0]
 - 2 [▼]/[▲]: Select the desired volume.
 - 3 [SAVE] \rightarrow [OFF]

Answering calls using the base unit (KX-TGP550 only)

- Lift the corded handset or press [CALL] or [SP-PHONE] when the unit rings.
- When you finish talking, place the corded handset on the cradle. When the speakerphone is used, press [SP-PHONE].

Adjusting the base unit ringer volume

- While the base unit is ringing for an incoming call:
 - Press (▲) or (▼) repeatedly to select the desired volume.
- Programming the volume beforehand:
 - 1 [MENU] (middle soft key) → [♯][1][6][0]
 - 2 [▼]/[▲]: Select the desired volume.
 - 3 [SAVE] \rightarrow [EXIT]

Hold

This feature allows you to put an outside call on hold.

Handset

- 1 Press [HOLD] during an outside call.
- To release hold, press [HOLD] or [].

∕ Base unit

Available for: KX-TGP550

- Press [HOLD] during an outside call.
 - If you are using the corded handset, you can place it on the cradle.
- To release hold, lift the corded handset, or press [HOLD] or [SP-PHONE].

Transferring calls

Outside calls can be transferred to:

- another unit
- an outside party

Using the handset

Transferring calls to another unit

- 1 During an outside call, press [MENU].
- 2 [▼]/[▲]: "Intercom" → [SELECT]
- 3 [▼]/[▲]: Select the desired unit. → [CALL]
- 4 Wait for the paged party to answer.
 - If the paged party does not answer, press [] to return to the outside call.
- 5 [OFF]

Transferring calls to an outside party

- 1 During an outside call, press [MENU].
- 2 [▼]/[▲]: "Transfer" →
 [SELECT]
- 3 Dial the phone number.

Basic Operations

- To correct the number, press [CANCEL] to clear the number and enter again.
- 4 Wait for the paged party to answer.
 - If the paged party does not answer, press [CANCEL] 2 times to return to the outside call.
- 5 [TRANS]

Using the base unit

Available for: KX-TGP550

Transferring calls to another unit

- 2 Wait for the paged party to answer.
 - If the paged party does not answer, press the same button as in step 1 to return to the outside call
- **3** Place the corded handset on the cradle.

Transferring calls to an outside party

- 1 During an outside call, press [MENU].
- 2 [▼]/[▲]: "Transfer" → [SELECT]
- 3 Dial the phone number.
 - To correct the number, press [CANCEL] to clear the number and enter again.
- 4 Wait for the paged party to answer.
 - If the paged party does not answer, press [CANCEL] 2 times to return to the outside call.
- 5 [TRANS]

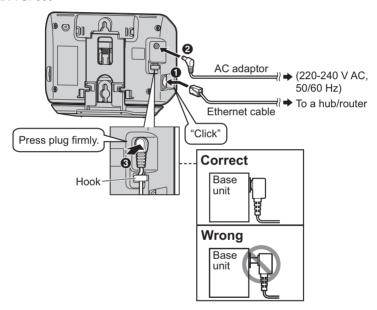

Setting up the base unit

Connecting the base unit

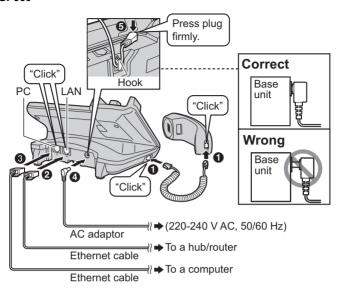

Important:

- Use only the supplied Panasonic AC adaptor PQLV219AL.
- KX-TGP550 only: Do not connect the Ethernet cable connected to the PoE hub to the PC port of the unit. Doing so may cause severe damage to the unit.

KX-TGP500

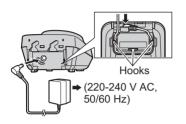

KX-TGP550

Setting up the handset

Connecting the charger

 Use only the supplied Panasonic AC adaptor PQLV219AL.

Battery installation

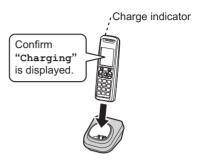

- USE ONLY Ni-MH batteries AAA (R03) size.
- Do NOT use Alkaline/Manganese/Ni-Cd batteries
- Confirm correct polarities (⊕, ⊝).

Battery charge

Charge for about 6 hours.

 When the batteries are fully charged, the charge indicator goes off.

Note when setting up

Note for connections

- The AC adaptor must remain connected at all times. (It is normal for the adaptor to feel warm during use.)
- The AC adaptor should be connected to a vertically oriented or floormounted AC outlet. Do not connect the AC adaptor to a ceiling-mounted AC outlet, as the weight of the adaptor may cause it to become disconnected.
- The unit will not work during a power failure

Note for battery installation

- Use the supplied rechargeable batteries. For replacement, we recommend using the Panasonic rechargeable batteries noted in the User Guide on the Panasonic Web site. See page 3 for Panasonic URL.
- Wipe the battery ends (⊕, ⊝) with a dry cloth.
- Avoid touching the battery ends (⊕,
 ⊕) or the unit contacts.

Note for battery charge

- It is normal for the handset to feel warm during charging.
- Clean the charge contacts of the handset and charger with a soft and dry cloth once a month. Clean more often if the unit is exposed to grease, dust, or high humidity.

Battery level

Icon	Battery level	
	High	
	Medium	
	Low	
<u>`</u> `_``	Needs charging.	
	Empty	

Panasonic Ni-MH battery performance (supplied batteries)

Operation	Operating time
In continuous use	5 hours max.
Not in use (standby)	240 hours (10 days) max.

Note:

- It is normal for batteries not to reach full capacity at the initial charge.
 Maximum battery performance is reached after a few complete cycles of charge/discharge (use).
- Actual battery performance depends on a combination of how often the handset is in use and how often it is not in use (standby).
- Even after the handset is fully charged, the handset can be left on the charger without any ill effect on the batteries.
- The battery level may not be displayed correctly after you replace

the batteries. In this case, place the handset on the charger and let it charge for at least 6 hours.

Setting network

Important:

 We recommend configuring these settings with your administrator. You can also configure the network settings through the Web user interface. Contact your administrator for further information.

Automatic setup (default) Turning the DHCP connection mode on

Handset

- 1 [MENU] (centre of joystick) → [♯][5][0][0]
- 2 [v]/[A]: "on" \rightarrow [SAVE]
- 3 [▼]/[▲]: "Automatic" → [SAVE]
 → [OFF]

Available for: KX-TGP550

- 1 [MENU] (middle soft key) → [♯][5][0][0]
- 2 [v]/[A]: "on" \rightarrow [SAVE]
- 3 [▼]/[▲]: "Automatic" → [SAVE]
 → [EXIT]

Static setup

Handset

Turning the DHCP connection mode off

1 [MENU] (centre of joystick) → [♯][5][0][0]

Setting the static IP address and other settings

- 1 [MENU] (centre of joystick) → [♯][5][0][1]
- 2 Set the IP address, subnet mask, default gateway, DNS1, and DNS2.
 - Push the joystick down [▼] or up
 [▲] to move between the items.
 - To move the cursor, push the joystick right [►] or left [◄].
 To correct digits, press [CLEAR].
- 3 [SAVE] \rightarrow [OFF]

Available for: KX-TGP550

Turning the DHCP connection mode off

- 1 [MENU] (middle soft key) → [♯][5][0][0]
- 2 [V]/[A]: "Off" \rightarrow [SAVE] \rightarrow [EXIT]

Setting the static IP address and other settings

- 1 [MENU] (middle soft key) → [♯][5][0][1]
- 2 Set the IP address, subnet mask, default gateway. DNS1. and DNS2.
 - Press (▼) or (▲) to move between the items.
 - To move the cursor, press [►] or [◄].

To correct digits, press [CLEAR].

3 [SAVE] \rightarrow [EXIT]

Parts of the NetBSD Kernel are provided with the licenses that are slightly different from the above Berkeley-formed license. Please refer the source code of the NetBSD Kernel about the details

The source code of the NetBSD Kernel is provided by the NetBSD CVS Repositories (http://cvsweb.netbsd.org/bsdweb.cgi/), and this product includes parts of the source code in the

following directories.

http://cvsweb.netbsd.org/bsdweb.cgi/src/sys/kern/

http://cvsweb.netbsd.org/bsdweb.cgi/src/svs/net/

http://cvsweb.netbsd.org/bsdweb.cgi/src/sys/netinet/

<<OpenSSL>>

The product includes software developed by the OpenSSL Project and it is used under the following license.

LICENSE ISSUES

The OpenSSL toolkit stays under a dual license, i.e. both the conditions of the OpenSSL License and the original SSLeav license apply to the toolkit. See below for the actual license texts. Actually both licenses are BSD-style Open Source licenses. In case of any license issues related to OpenSSL please contact openssl-core@openssl.org.

Warranty (for New Zealand)

Panasonic New Zealand undertakes to:

Repair or at its option, replace without cost to the owner, either for material or labour, any part which is found to be defective within two years of the date of purchase.

THIS EXPRESS WARRANTY DOES NOT COVER:

- 1) Pick up and delivery.
- 2) Batteries.
- Repairs when the product has not been used in accordance with the Operating Instructions Manual or has been modified.
- Normal maintenance and cleaning as required in the product's Operating Instructions Manual.
- 5) Service calls to: a Correct the set up of the product
 - b Instruct you how to use the product
 - c Replace fuses or correct your building's wiring
- 6) Damage to the product caused by accident, misuse or Act of God.
- 7) Repairs when the product has been dismantled, repaired, modified or serviced by other than a Panasonic Authorised Dealer authorised to service that type of product.

IF YOUR PANASONIC PRODUCT FAILS WITHIN THE WARRANTY PERIOD:

Take it to the Authorised Panasonic Dealer from whom you purchased the product who will repair it (or arrange to have it repaired) during their normal business hours. All enquiries regarding warranty or otherwise, please call – Customer Support Centre Tel. No.: (09) 272 0178

NOTE: THIS EXPRESS WARRANTY IS OFFERED AS AN EXTRA BENEFIT AND DOES NOT AFFECT YOUR LEGAL RIGHTS.
