

# MOBILITY AS A SERVICE

Switch on, set up and go.

Take care of all your organisation's mobile needs with **Mobility as a Service (MaaS)**. One simple, flexible solution to get the right devices in the right hands, at the right time. That way, your team can focus on doing what they do best.

## Why MaaS?

**Simple**  
One standalone solution that works for every level of your business. It includes comprehensive reporting and direct support from our expert team.

**Scalable**  
With open term device rental after six months, you have the ability to add and remove mobiles as you need, plus tiered device and plan options to adapt with your business needs.

**Smart**  
Only ever pay for the devices and plans you need, all wrapped up into one low monthly operating expense, for smarter budgeting and easier planning..

## How does it work?

**1. Choose**  
Your dedicated Customer Lead will help you select plan tiers, plus any other options your organisation requires.  
Note: currently only selected Samsung devices are available.

**2. Connect**  
We'll get your team the compatible devices they need, so they can get set up and connected in no time.

**3. Continue**  
We take the hassle out of ongoing mobile management, so your team can keep focusing on what they do best.
