

# MOBILITY

## AS A SERVICE

Switch on, set up and go.

Welcome to your new **Spark Mobility as a Service (MaaS)** experience.  
To get set up, follow these steps.

1

Transfer important data from your old phone. To save mobile data, use WiFi.

2

Insert your SIM and turn the phone on, then make sure you have reception.

3

Follow the instructions on screen and you're good to go.

For more detailed instructions, head to:
